

January 2011

Nelson Braddy
King of Texas Roofing Company, L.P.
307 Gilbert Circle
Grand Prairie, TX 75050

Dear Nelson:

Firestone Building Products is pleased to present King of Texas Roofing Company, L.P. with four of the most prestigious distinctions in the commercial roofing industry – the 2011 Firestone Master Contractor, Inner Circle of Quality, President's Club and Platinum Council Awards. These awards recognize the industry's top firms that consistently demonstrate an unwavering commitment to high-quality commercial roofing system installation.

This is the first time King of Texas Roofing has earned the premiere Platinum Council Award. This progressive award recognizes the best-of-the-best – the top 32 Master Contractors that earned the highest Quality Points during the combined 2009 and 2010 period. Platinum Council contractors are skilled in providing the highest levels of installation excellence.

This year, King of Texas Roofing has also earned the prestigious Firestone President's Club Award for the 10th time. The top 33 Firestone Master Contractors that accrued the highest level of Quality Points over the past year obtain a spot in the Firestone President's Club.

Additionally, King of Texas Roofing has earned the coveted Firestone Inner Circle of Quality Award this year for the 12th time. The Inner Circle of Quality Award annually honors a distinguished group of Master Contractors that installed a minimum of four warranted Firestone roofs in each of the past five years, maintained at least two million square feet of Firestone roofs under warranty, and achieved an annual Quality Incidence Rating (QIR) of 2.0 or less. Firestone's QIR measures each contractor's quality performance based on warranty repair incidences per million square feet under warranty.

King of Texas Roofing has also earned Firestone Master Contractor status for the 19th time. The firm received the Master Contractor Award based on total square footage installed and Quality Points accumulated for exceptional inspection ratings on Firestone Red Shield® warranted RubberGard™ EPDM, UltraPly™ TPO, UNA-CLAD™ metal and asphalt roofing system installations completed over the past year.

On behalf of Firestone, I extend our warm congratulations on these outstanding achievements. It takes an immense amount of hard work and dedication to attain these four industry achievements, which represent the pinnacle of high quality workmanship. We appreciate King of Texas Roofing's loyalty and commitment to upholding Firestone's high commercial roofing standards and are confident that together we will continue to grow well into the future.

Sincerely,

A handwritten signature in black ink that reads "Ken Weaver".
